

DIN EN 16503:2014-11 (E)

Water quality - Guidance standard on assessing the hydromorphological features of transitional and coastal waters

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Terms and definitions	5
3	Principle	9
4	Survey requirements	10
4.1	General	10
4.2	Defining hydromorphological units	10
4.3	Survey strategy	10
4.4	Reference conditions	11
4.4.1	General	11
4.4.2	Morphological and hydrological conditions	11
5	Features for survey and assessment	12
5.1	Features and attributes	12
5.2	Pressures on hydromorphology	12
5.2.1	General	12
5.2.2	Classes of human pressures	13
5.3	Data sources and methods of obtaining information	16
6	Reporting hydromorphological assessment and classification	17
6.1	General	17
6.2	Data presentation	17
7	Training and quality assurance for survey and assessment	18
7.1	General	18
7.2	Areas for training	18
7.3	Data entry and validation	19
