

# DIN EN 16503:2014-11 (E)

## Water quality - Guidance standard on assessing the hydromorphological features of transitional and coastal waters

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
Introduction .....		4
1	Scope .....	5
2	Terms and definitions .....	5
3	Principle .....	9
4	Survey requirements .....	10
4.1	General .....	10
4.2	Defining hydromorphological units .....	10
4.3	Survey strategy .....	10
4.4	Reference conditions .....	11
4.4.1	General .....	11
4.4.2	Morphological and hydrological conditions .....	11
5	Features for survey and assessment .....	12
5.1	Features and attributes .....	12
5.2	Pressures on hydromorphology .....	12
5.2.1	General .....	12
5.2.2	Classes of human pressures .....	13
5.3	Data sources and methods of obtaining information .....	16
6	Reporting hydromorphological assessment and classification .....	17
6.1	General .....	17
6.2	Data presentation .....	17
7	Training and quality assurance for survey and assessment .....	18
7.1	General .....	18
7.2	Areas for training .....	18
7.3	Data entry and validation .....	19
Bibliography .....		20
