DIN EN 124-1:2015-09 (E)

Gully tops and manhole tops for vehicular and pedestrian areas - Part 1: Definitions, classification, general princi ples of design, performance requirements and test methods

Contents

Page

Foreword 4

1 Scope 6

2 Normative references 6

3 Terms and definitions, symbols, units and abbreviated terms 7
3.1 Terms and definitions 7
3.2 Symbols and abbreviated terms 11

4 Classification 11
4.1 Basis of the classification 11
4.2 Classification in the context of intended use 11

5 Materials 13
5.1 General 13
5.2 Cover fillings 13
5.3 Frames in combination with concrete 13

6 Design requirements 13
6.1 Vents in covers 13
6.2 Clear opening of manhole tops for man entry 14
6.3 Depth of insertion 14
6.4 Clearance 14
6.5 Compatibility of seatings 15
6.6 Securing of the cover/grating within the frame 15
6.7 Handling of covers and gratings 16
6.8 Slot dimensions of gratings 16
6.9 Dirt pans and dirt buckets 17
6.10 Positioning of covers and gratings 18
6.11 Flatness of manhole covers and gratings 18
6.12 Concaveness of gratings 18
6.13 Surface conditions 18
6.14 Manhole tops with sealing features 18
6.15 Frame bearing area 18
6.16 Frame depth 18
6.17 Opening angle of hinged covers/gratings 19
6.18 Covers with fillings 19

7 Performance requirements 19
7.1 Appearance 19
7.2 Load bearing capacity 19
7.3 Permanent set 19
7.4 Skid resistance 20
7.5 Child safety 21

8 Testing 22
8.1 General 22
8.2 Permanent set (see 7.3) 22

8.3 Load bearing capacity (see 7.2) ... 22
8.4 Verification of design requirements ... 22
8.5 Child safety ... 24

9 Assessment and verification of constancy of performance (AVCP) ... 24

Annex A (normative) Permanent set test ... 25

A.1 Test Samples ... 25
A.2 Permanent set test load, (FP) ... 25
A.3 Apparatus ... 25
A.4 Procedure ... 26

Annex B (normative) Test of load bearing capacity ... 29

B.1 Test samples ... 29
B.2 Test load (FT) ... 29
B.3 Test procedure ... 29
B.4 Test report ... 29

Annex C (normative) Test to determine the unpolished skid resistance value (USRV) of manhole covers ... 30

C.1 General ... 30
C.2 Apparatus ... 30
C.3 Calibration of pendulum friction test equipment ... 30
C.4 Selection of test samples ... 30
C.5 Test procedure ... 30

Annex D (normative) Tilt test ... 33

D.1 General ... 33
D.2 Test procedure ... 33

Annex E (normative) Testing of securing of covers/gratings within the frame ... 36

E.1 General ... 36
E.2 Vertical pull-out test procedure ... 37

Annex F (informative) Recommendations for installation ... 41

F.1 General ... 41
F.2 Place of installation and selection of appropriate manhole tops and gully tops ... 41
F.3 Preparations before installation ... 41
F.4 Operative skill, training and installation equipment ... 41
F.5 Bedding and packing materials ... 42
F.6 Condition of supporting chamber ... 42
F.7 Fixing of manhole tops or gully tops ... 42
F.8 Post installation check and cleaning ... 42

Annex G (informative) Explanations on testing of manhole tops with multiple covers and testing the skid resistance ... 44

G.1 Explanation to A.4 ... 44
G.2 Explanation to 7.4.2 ... 44

Bibliography ... 45
