European foreword 3

Foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Principle 7

5 Test organisms 8

6 Growth medium 8
6.1 Preparation of stock solutions 9
6.2 Preparation of the final concentration of modified Steinberg medium 9

7 Apparatus 9

8 Reference chemicals 10

9 Procedure 10
9.1 Germination of the Spirodela polyrhiza turions 10
9.2 Tests on effluents (and waste waters) 10
9.2.1 Addition of concentrated growth medium to the effluent sample 10
9.2.2 Preparation of the effluent dilutions 11
9.2.3 Procedure 11
9.3 Tests on chemical compounds 12
9.3.1 Range finding test 12
9.3.2 Definitive test 13
9.4 Filling of the test plate with the toxicant dilutions 14
9.4.1 General 14
9.4.2 Procedure 14
9.5 Transfer of the germinated turions in the test cups 15
9.6 Photo of the multiwell at the start of the toxicity test 15
9.7 Incubation of the multiwall 15
9.8 Photo of the multiwell at the end of the toxicity test 16
9.9 Measurement of the area of the first fronds 16

10 Data treatment -- Calculation of the growth inhibition 16

11 Validity criterion 17

12 Test sensitivity 17

13 Test with reference chemicals 17

14 Test report 20

Annex A (informative) Spirodela polyrhiza stock culturing for turion production 21

Annex B (informative) Sensitivity of the Spirodela polyrhiza microbiotest 22

Annex C (informative) Performance data 24

Bibliography 25
