Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Preliminary considerations 1

5 Concepts and processes 3
5.1 General 3
5.2 Risk assessment 3
5.3 Risk management 4
5.4 Identifying hazards 5

6 Safety precautions -- General aspects 5
6.1 Safety policy 5
6.2 Planning and managing for safety 6
6.3 Personnel 7
6.4 Safety equipment 7

7 Safety precautions in relation to particular hazards 11
7.1 General 11
7.2 Personal protective equipment 11
7.3 Chemicals 11
7.4 Gases 12
7.5 Biological hazards (bacteria and viruses) 13
7.6 Radiation 13
7.7 Asbestos 13
7.8 Topography 13
7.9 Machines 14
7.10 Buildings and other structures 15
7.11 Unexploded ordnance and other explosive hazards 15
7.12 Extreme weather conditions 16

8 Safetyprocedures--Specificactivities 16
8.1 General 16
8.2 Protection of buildings and installations including underground utilities 16
8.3 Safety on agricultural sites (see also 6.4 and B.2) 17
8.4 Safety on contaminated sites (see also 6.4 and B.3) 17
8.4.1 Preliminary investigation and site reconnaissance 17
8.4.2 Field investigations -- General 18
8.4.3 Field investigations -- Soil gas 18

Annex A (informative) Routes of exposure to hazard 20

Annex B (informative) Potential on-site hazard relating to sampling and the area of investigation 22

Annex C (informative) Example of risk assessment 29
