Service activities relating to drinking water supply systems and wastewater systems - Guidelines for benchmarking of water utilities

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Benchmarking -- Objectives, work steps and characteristics 4
4.1 Objectives 4
4.2 Performance assessment and performance improvement 4
4.3 Benchmarking work steps 5
4.4 Requirements on performance indicator systems for drinking water and wastewater services 8
4.5 Benchmarking at different levels of detail 10

5 Notes and recommendations for benchmarking projects 12
5.1 General 12
5.2 Comparability of benchmarking objects 12
5.3 Notes for project organization, project management and data management 12
5.3.1 Project organization 12
5.3.2 Project management of the overall project 12
5.3.3 Data management 13
5.4 Requirements on the personnel involved 13

6 Results and their application 13
6.1 Principle of confidentiality 13
6.2 Use and presentation of results in public 13
6.3 Notes for the interpretation of results 14

7 Project costs 14

Annex A (informative)Checklistforclarificationoftheprinciplesofcooperationand confidentialityinthetreatmentofdata,informationandprojectresultsin benchmarking projects 15

Annex B (informative) Examples for voluntary and industry based benchmarking projects 16
