DIN EN 17218:2020-09 (E)

Water quality - Guidance on sampling of mesozooplankton from marine and brackish water using mesh

Contents

Page

European foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Principle 7

5 Sampling device 8
5.1 General 8
5.2 Nets 8
5.3 Other field equipment 10
5.4 Preserving solutions and other chemicals 11

6 Prearrangements of sampling 12
6.1 Documentation of strategies and methods 12
6.2 Preparation of sampling equipment 12
6.3 Safety instructions 12

7 Sampling procedure 12
7.1 Investigation programme 12
7.2 Number and location of sampling sites 13
7.2.1 General 13
7.3 Diurnal sampling period 14
7.3.1 General 14
7.3.2 Sample size 14
7.3.3 Geographical localization of sampling sites 14
7.4 Operating the sampling device 15
7.4.1 Vertical net hauls 15
7.4.2 Horizontal tows/hauls 15
7.4.3 Filling and labelling of sample bottles 16
7.4.4 Preservation and storage of samples 17
7.5 Field data recording 18

8 Quality assurance 18

Annex A (informative) Examples of sampling devices 19

A.1 Bongo nets 19
A.2 Continuous plankton recorder 19
A.3 WP2 net 20
A.4 Multinets 20
A.5 Gulf VII sampler 21

Annex B (informative) Preservation 22

B.1 Preservation 22

B.2 Formaldehyde (formalin) 22
B.2.1 General 22
B.2.2 Advantages of formaldehyde 22
B.2.3 Disadvantages of formaldehyde 23
B.3 Lugol's Iodine 23
B.3.1 General 23
B.3.2 Advantages of Lugol's Iodine (over formaldehyde) 23
B.3.3 Disadvantages of Lugol's Iodine 23
B.4 Ethanol 24
B.4.1 Advantages of ethanol 24
B.4.2 Disadvantages of ethanol 24

Annex C (informative) Corrections of depth from wire angle [1] 25

Annex D (informative) Example of a field data sheet 26

Annex E (informative) Ribbon-sampling devices 27

E.1 Continuous plankton recorder (CPR) 27
E.2 Longhurst Hardy plankton recorder (LHPR) 27

Bibliography 28
