|------------------------------------------------------------------------------------------------------|-------------|
| <b>National foreword</b> .....                                                                       | <b>3</b>    |
| <b>National Annex NA (informative) Bibliography</b> .....                                            | <b>4</b>    |
| <b>Foreword</b> .....                                                                                | <b>5</b>    |
| <b>Introduction</b> .....                                                                            | <b>6</b>    |
| <b>1 Scope</b> .....                                                                                 | <b>8</b>    |
| <b>2 Normative references</b> .....                                                                  | <b>8</b>    |
| <b>3 Terms and definitions</b> .....                                                                 | <b>8</b>    |
| <b>4 General/principle</b> .....                                                                     | <b>9</b>    |
| <b>5 Phases of investigation</b> .....                                                               | <b>9</b>    |
| <b>6 Objectives of preliminary investigations</b> .....                                              | <b>11</b>   |
| <b>7 Scope of preliminary investigations</b> .....                                                   | <b>12</b>   |
| 7.1 General/strategy .....                                                                           | 12          |
| 7.2 Desk study .....                                                                                 | 15          |
| 7.2.1 General .....                                                                                  | 15          |
| 7.2.2 Information on past and present use .....                                                      | 16          |
| 7.2.3 Information on geology, pedology, geomorphology, hydrology and hydrogeology .....              | 18          |
| 7.2.4 Ecology and archaeology .....                                                                  | 18          |
| 7.3 Consultations .....                                                                              | 19          |
| 7.4 Site reconnaissance .....                                                                        | 20          |
| <b>8 Development of the preliminary conceptual site model</b> .....                                  | <b>21</b>   |
| 8.1 Overall conceptual site model .....                                                              | 21          |
| 8.2 Characteristic distributions of the physico-chemical properties .....                            | 23          |
| 8.3 Formulation of contamination-related hypotheses .....                                            | 24          |
| 8.4 Preliminary qualitative risk assessment for potentially contaminated sites .....                 | 24          |
| 8.5 Further investigations .....                                                                     | 25          |
| <b>9 Reporting the preliminary investigation and the conceptual site model</b> .....                 | <b>25</b>   |
| <b>Annex A (informative) Contaminants of potential concern and industry/contaminant matrix</b> ..... | <b>27</b>   |
| <b>Bibliography</b> .....                                                                            | <b>41</b>   |
