ISO 8779:2020 (E)

Plastics piping systems — Polyethylene (PE) pipes for irrigation — Specifications

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Material

- 4.1 General
- 4.2 Use of reprocessable material
- 4.3 Physical characteristics of the material
- 4.4 Designation and classification

5 Geometrical characteristics

- 5.1 Measurements
- 5.2 Mean outside diameter and out-of-roundness
- 5.3 Wall thicknesses and their tolerances

6 Mechanical characteristics

- 6.1 Requirements
- 6.2 Retest in case of failure at 80 °C

7 Physical characteristics

- 7.1 Requirements

8 Marking

- 8.1 General
- 8.2 Minimum required marking of pipes

Annex A (informative) Effect of water temperature on the maximum allowable working pressure of irrigation pipe
