## Water quality - Determination of long term toxicity of substances to *Daphnia magna* Straus (Cladocera, Crustacea)

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Principle .....	1
4	Test environment .....	1
5	Reagents and materials .....	2
6	Apparatus .....	3
7	Treatment and preparation of samples .....	3
7.1	Special precautions for sampling and transportation of water or effluent samples .....	3
7.2	Preparation of solutions of substances to be tested .....	3
8	Procedure .....	4
8.1	Controls .....	4
8.2	Selection of exposure concentrations .....	4
8.3	Renewal of exposure solutions .....	5
8.4	Introduction of animals into the test system .....	5
8.5	Feeding of organisms .....	5
8.6	Observations and measurements .....	5
8.7	Validity of the test .....	6
9	Data analysis and expression of results .....	6
10	Test report .....	7
Annex A (informative) OECD M4 and M7 media -- Preparation and acclimation of Elendt M4 and M7 media .....		9
Annex B (informative) ASTM reconstituted hard fresh water .....		12
Annex C (informative) Data collection sheet .....		13
Annex D (informative) Calculation of time-weighted mean concentration .....		15
Bibliography .....		17
