ISO 11063:2020 (E)

Soil quality — Direct extraction of soil DNA

Contents

Foreword

Introduction

1 Scope

2 Normative references

3 Terms and definitions

4 Principle

5 Test materials

5.1 Soil
5.2 Chemicals
5.3 Buffers and reagents

6 Apparatus

7 Procedures

7.1 Preparation of soil samples
7.2 Mechanical and chemical lyses
7.3 Protein precipitation
7.4 Nucleic acid precipitation and washing
7.5 Nucleic acid storage

8 Estimation of soil DNA quality and quantity

8.1 Soil DNA quality and purity
8.2 Soil DNA quantity

9 Validation of the extraction procedure

10 Test report

Annex A (informative) Differences between ISO 11063:2012 and the revised document for direct extraction of DNA from soil samples

Annex B (informative) Possible methods to purify soil DNA extracts
