ISO 24528:2021-03 (E)

Service activities relating to drinking water supply, wastewater and stormwater systems - Guideline for a water loss investigation of drinking water distribution networks

Contents

Page

Foreword ..... **v**

Introduction ..... **vi**

1 Scope **1**

2 Normative references **1**

3 Terms and definitions **1**

4 Defining objectives for the water loss investigation **5**

5 Water loss investigation steps **6**

6 Water loss investigation scope determination **6**
6.1 General 6
6.2 Water loss investigation area 6
6.3 Time period of the water loss investigation 7
6.4 Units of measurement 7

7 Data collection and validation methods **7**
7.1 Data collection methods 7
7.2 Data validation of water balance calculation 8
7.2.1 Validation methods 8
7.2.2 Data quality 8
7.2.3 Practices rating 9

8 Water balance calculation **9**
8.1 General 9
8.2 Parameters of the water balance 10
8.2.1 General 10
8.2.2 System input volume 10
8.2.3 Exported water 10
8.2.4 Water supplied 10
8.2.5 Billed authorized use or revenue water 10
8.2.6 Unbilled authorized use 11
8.2.7 Authorized use 11
8.2.8 Non-revenue water 11
8.2.9 Water loss 11
8.2.10 Apparent water loss 11
8.2.11 Real water loss 11

9 Water loss performance indicators selection **12**
9.1 General 12
9.2 Defining performance indicator purposes 12
9.3 Selecting performance indicators 12

10 Apparent water loss status assessment **12**
10.1 General 12
10.2 Analysis of user database 13
10.3 Field surveys 13
10.4 Assessing unauthorized use 13
10.5 Assessing user metering errors 13
10.6 Assessing errors on the data acquisition process 14
10.7 Assessing errors in estimates of unmetered use 14

11 Real water loss status assessment **14**
11.1 General 14

11.2 Real water loss components 15
11.2.1 General 15
11.2.2 Estimating reported real water loss 15
11.2.3 Estimating background real water loss 15
11.2.4 Estimating unreported real water loss 16
11.2.5 Estimating leakage and storage tanks overflow 16
11.3 Bursts and active leakage control assessments 16

12 Real water loss and apparent water loss cost assignment 16
12.1 General 16
12.2 Determining the cost impact of apparent water loss components 16
12.3 Determining the cost impact of real water loss components 16

13 Water loss management plan preparation 17
13.1 General 17
13.1.1 Introduction 17
13.1.2 General principles of a water loss management plan 17
13.1.3 Water loss management plan stages 18
13.1.4 Water loss management plan investments 18
13.2 General principles for apparent water loss management 19
13.2.1 General 19
13.2.2 Unauthorized water use 19
13.2.3 User metering errors 19
13.2.4 Data handling errors 19
13.2.5 Unmetered use estimation errors 19
13.3 General principles for real water loss management 19
13.3.1 General 19
13.3.2 Management plan of district metered areas 20
13.4 Planning an active leakage control management plan 21
13.5 Pressure management 21
13.6 Improved system maintenance and rehabilitation 22

14 General principles for water loss target setting 22

15 Example of an organizational structure for the management of non-revenue water 23

Annex A (informative) **Additional guidance on how to measure or calculate elements of water balance 24**

Annex B (informative) **Factors affecting real water loss 30**

Annex C (informative) **Performance indicators 31**

Annex D (informative) **Bursts and background estimate (BABE) 35**

Annex E (informative) **Water loss investigation for intermittent supply networks 37**

Annex F (informative) **Fixed and variable area discharge pressure and leakage 41**

Annex G (informative) **Economic leakage level (ELL): assessing economic level of real water loss 42**

Annex H (informative) **Examples of leak detection technologies 48**

Annex I (informative) **Monitoring an open drinking water distribution network with a virtual district metered area 51**

Annex J (informative) **Understanding the effects of uncertainties in data 52**

Annex K (informative) **Using night flow data to assess real water loss 54**

Annex L (informative) **Dynamic pressure control 58**
