DIN EN 16933-1:2022-10 (E)

Drain and sewer systems outside buildings - Design - Part 1: Layout principles

Contents

Page

European foreword 3

Introduction 4

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 General 8
4.1 Introduction 8
4.2 The design process 8

5 Preliminary investigations 10
5.1 General 10
5.2 Topography 10
5.3 Geotechnical survey 10
5.4 Groundwater 11
5.5 Existing drainage services 11
5.6 Other existing utility services 11
5.7 Nature and quality of inputs 11

6 Layout 12
6.1 General 12
6.2 Access locations 14
6.3 Provision of pumping 16
6.4 Drains and sewers near water abstraction areas 17

7 Sources of additional information 17
