Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Desalted water quality 1

5 Product water quality 1

6 Monitoring frequency 2

7 Test methods 2

Annex A (informative) Calculation method of calcium hardness 3

Annex B (informative) Calculation method of the Langelier saturation index (LSI) 4

Annex C (informative) Information of product water quality of seawater RO desalination inspecificcases 5

Bibliography 6
