ISO 8466-1:2021-11 (E)

Water quality - Calibration and evaluation of analytical methods - Part 1: Linear calibration function

Contents

Page

Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 Symbols 2

5 Determination of the linear working range and establishment of the calibration range 4
5.1 General 4
5.2 Preliminary choice of working range 4
5.3 Estimation of the linear working range 4
5.3.1 General 4
5.3.2 Visual testing of measurement data -- Testing using the x/y-diagram 5
5.3.3 Estimation of the linear range by calculating the point-to-point slope 5

6 Calibration strategies 6
6.1 General 6
6.2 Calculation of the calibration function 8
6.3 Calibration of the measuring method using an external standard, including determination of the recovery rate of the analyte 9
6.3.1 General 9
6.3.2 Establishing the calibration function 9
6.3.3 Determination of the recovery rate 10
6.3.4 Calculation of results 10
6.4 Calibration of the measuring method using an internal standard, including determination of the recovery rate of the internal standard 11
6.4.1 General 11
6.4.2 Establishing the calibration function 11
6.4.3 Determination of the recovery rate 11
6.4.4 Calculation of results 12
6.5 Calibration of the total procedure using an external standard 12
6.5.1 General 12
6.5.2 Establishing the calibration function 12
6.5.3 Calculation of results 13
6.6 Calibration of the total procedure using an internal standard 13
6.6.1 General 13
6.6.2 Establishing the calibration function 13
6.6.3 Calculation of results 14
6.7 Standard addition 14
6.7.1 General 14
6.7.2 Procedure 14
6.7.3 Calculation of results 15

7 Strategies for testing the validity of calibration 16
7.1 General 16
7.2 Testing by means of a control solution or control sample 16

7.3 Testing the slope of the calibration line 16

Annex A (informative)Goodness-of-fittestaccordingtoMandel,standarddeviationofthe procedure,variationcoefficientoftheprocedureandconfidenceinterval 17

Annex B (informative) Examples of linearity testing 20

Annex C (normative) Examination of the linear working range using the empirical test of curvature 32

Annex D (informative) Weighted regression -- Weighting 1/x 39
