Water quality - Calibration and evaluation of analytical methods - Part 1: Linear calibration function

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Symbols	2
5	Determination of the linear working range and establishment of the calibration range	4
5.1	General	4
5.2	Preliminary choice of working range	4
5.3	Estimation of the linear working range	4
5.3.1	General	4
5.3.2	Visual testing of measurement data – Testing using the x/y-diagram	5
5.3.3	Estimation of the linear range by calculating the point-to-point slope	5
6	Calibration strategies	6
6.1	General	6
6.2	Calculation of the calibration function	8
6.3	Calibration of the measuring method using an external standard, including determination of the recovery rate of the analyte	9
6.3.1	General	9
6.3.2	Establishing the calibration function	9
6.3.3	Determination of the recovery rate	10
6.3.4	Calculation of results	10
6.4	Calibration of the measuring method using an internal standard, including determination of the recovery rate of the internal standard	11
6.4.1	General	11
6.4.2	Establishing the calibration function	11
6.4.3	Determination of the recovery rate	11
6.4.4	Calculation of results	12
6.5	Calibration of the total procedure using an external standard	12
6.5.1	General	12
6.5.2	Establishing the calibration function	12
6.5.3	Calculation of results	13
6.6	Calibration of the total procedure using an internal standard	13
6.6.1	General	13
6.6.2	Establishing the calibration function	13
6.6.3	Calculation of results	14
6.7	Standard addition	14
6.7.1	General	14
6.7.2	Procedure	14
6.7.3	Calculation of results	15
7	Strategies for testing the validity of calibration	16
7.1	General	16
7.2	Testing by means of a control solution or control sample	16

7.3	Testing the slope of the calibration line	16
Annex A (informative)	Goodness-of-fit test according to Mandel, standard deviation of the procedure, variation coefficient of the procedure and confidence interval	17
Annex B (informative)	Examples of linearity testing	20
Annex C (normative)	Examination of the linear working range using the empirical test of curvature	32
Annex D (informative)	Weighted regression -- Weighting $1/x$	39
Bibliography	41
