

# DIN EN 12889:2023-03 (E)

## Trenchless construction and testing of drains and sewers

---

<b>Contents</b>		<b>Page</b>
European foreword .....		4
1	Scope .....	5
2	Normative references .....	5
3	Terms and definitions .....	5
4	General .....	7
4.1	Technical principles .....	7
4.2	Safeguarding design decisions .....	7
5	Construction components and materials .....	8
5.1	General .....	8
5.2	Pipes and joints .....	8
5.3	Manholes and inspection chambers .....	8
5.4	Delivery, handling and transportation on site .....	8
5.5	Storage .....	8
5.6	Other materials .....	9
6	Techniques .....	9
6.1	Classification .....	9
6.2	Unmanned techniques .....	11
6.2.1	General .....	11
6.2.2	Non-steerable techniques .....	11
6.2.3	Steerable techniques .....	18
6.3	Manned techniques .....	23
6.3.1	General .....	23
6.3.2	Non-steerable techniques .....	24
6.3.3	Steerable techniques .....	24
6.3.4	Other manned techniques .....	28
7	Requirements of planning and construction .....	29
7.1	General .....	29
7.2	Basic evaluation, design and construction planning .....	29
7.2.1	General .....	29
7.2.2	Survey of existing structures and systems .....	30
7.2.3	Ground and groundwater .....	31
7.2.4	Minimum clear dimensions .....	33
7.2.5	Subsidence, heaves, cover .....	33
7.2.6	Layout of the line .....	33
7.2.7	Tolerances .....	33
7.2.8	Starting, intermediate and target pits .....	33
7.2.9	Working face support .....	34
7.2.10	Additional measures in water bearing ground .....	34
7.2.11	Obstacles .....	34
7.2.12	Soil conditioning .....	34
7.2.13	Structural calculation .....	35
7.2.14	Construction site arrangement .....	35
7.3	Work preparation and construction .....	35
7.3.1	General .....	35
7.3.2	Starting, intermediate and target pits .....	36

7.3.3	Exit and entry processes .....	36
7.3.4	Static calculation of launch and reception shafts .....	36
7.3.5	Overcut .....	36
7.3.6	Recording and logging of jacking parameters .....	36
7.3.7	Support of the working face .....	37
7.3.8	Lubricant and supporting medium .....	37
7.4	Avoidance of damage .....	37
8	Inspection and testing of pipelines after installation .....	38
8.1	General .....	38
8.2	Visual inspection .....	38
8.3	Leaktightness .....	38
9	Qualifications .....	38
Annex A (informative) Additional information about the different systems .....		39
Annex B (informative) Guide to typical ranges of application regarding diameters and lengths in suitable soil .....		49
Annex C (informative) Guide to typical ranges of application for selected trenchless techniques regarding diameters and lengths in suitable soils .....		51
Annex D (informative) Trenchless insertion using a pipe plough system .....		52
