

DIN EN 12889:2023-03 (E)

Trenchless construction and testing of drains and sewers

Contents

	Page
European foreword	4
1 Scope	5
2 Normative references	5
3 Terms and definitions	5
4 General	7
4.1 Technical principles	7
4.2 Safeguarding design decisions	7
5 Construction components and materials	8
5.1 General	8
5.2 Pipes and joints	8
5.3 Manholes and inspection chambers	8
5.4 Delivery, handling and transportation on site	8
5.5 Storage	8
5.6 Other materials	9
6 Techniques	9
6.1 Classification	9
6.2 Unmanned techniques	11
6.2.1 General	11
6.2.2 Non-steerable techniques	11
6.2.3 Steerable techniques	18
6.3 Manned techniques	23
6.3.1 General	23
6.3.2 Non-steerable techniques	24
6.3.3 Steerable techniques	24
6.3.4 Other manned techniques	28
7 Requirements of planning and construction	29
7.1 General	29
7.2 Basic evaluation, design and construction planning	29
7.2.1 General	29
7.2.2 Survey of existing structures and systems	30
7.2.3 Ground and groundwater	31
7.2.4 Minimum clear dimensions	33
7.2.5 Subsidence, heaves, cover	33
7.2.6 Layout of the line	33
7.2.7 Tolerances	33
7.2.8 Starting, intermediate and target pits	33
7.2.9 Working face support	34
7.2.10 Additional measures in water bearing ground	34
7.2.11 Obstacles	34
7.2.12 Soil conditioning	34
7.2.13 Structural calculation	35
7.2.14 Construction site arrangement	35
7.3 Work preparation and construction	35
7.3.1 General	35
7.3.2 Starting, intermediate and target pits	36

7.3.3	Exit and entry processes	36
7.3.4	Static calculation of launch and reception shafts	36
7.3.5	Overcut	36
7.3.6	Recording and logging of jacking parameters	36
7.3.7	Support of the working face	37
7.3.8	Lubricant and supporting medium	37
7.4	Avoidance of damage	37
8	Inspection and testing of pipelines after installation	38
8.1	General	38
8.2	Visual inspection	38
8.3	Leaktightness	38
9	Qualifications	38
Annex A (informative) Additional information about the different systems		39
Annex B (informative) Guide to typical ranges of application regarding diameters and lengths in suitable soil		49
Annex C (informative) Guide to typical ranges of application for selected trenchless techniques regarding diameters and lengths in suitable soils		51
Annex D (informative) Trenchless insertion using a pipe plough system		52
Bibliography		53
