## Water quality - Determination of total bound nitrogen (ST-TN<sub>b</sub>) in water using small-scale sealed tubes - Part 2: Chromotropic acid colour reaction

---

| <b>Contents</b>                                 | <b>Page</b> |
|---|-------------|
| Foreword.....                                   | iv          |
| Introduction.....                               | v           |
| 1 Scope.....                                    | 1           |
| 2 Normative references.....                     | 1           |
| 3 Terms and definitions.....                    | 1           |
| 4 Principle.....                                | 2           |
| 5 Interferences.....                            | 2           |
| 6 Sampling and sample preparation.....          | 3           |
| 7 Reagents.....                                 | 3           |
| 8 Apparatus.....                                | 3           |
| 9 Oxidation and colour reactions principle..... | 4           |
| 9.1 General.....                                | 4           |
| 9.2 Chromotropic acid colour reaction.....      | 4           |
| 10 Quality control.....                         | 5           |
| 10.1 Verification of the calibration.....       | 5           |
| 10.2 System and interferences checks.....       | 5           |
| 11 Calculation.....                             | 5           |
| 12 Expression of results.....                   | 6           |
| 13 Test report.....                             | 6           |
| Annex A (informative) Performance data.....     | 7           |
| Bibliography.....                               | 8           |
