# DIN EN 18025:2025-11 (E)

## Water quality - Guidance standard on a strategic approach to river restoration

## Contents

Page

European foreword ... 3

Introduction ... 4

1 Scope ... 5

2 Normative references ... 5

3 Terms and definitions ... 5

4 Principle ... 12

5 Aims of river restoration ... 12

6 Spatial context and scale ... 14

7 Spectrum of intervention ... 14
7.1 General ... 14
7.2 Natural recovery ... 16
7.3 Assisted natural recovery ... 17
7.4 Designed restoration ... 17

8 Opportunities and constraints ... 18
8.1 Factors to consider when planning river restoration ... 18
8.2 Ecological effects on morphology, and the risks of intervention ... 19
8.3 Socio-economic development, legacy land use and river regulation (restoration constraints) ... 19

9 Planning and implementation ... 20
9.1 Approach to restoration ... 20
9.2 The restoration process ... 20
9.2.1 General ... 20
9.2.2 Understanding the catchment ... 22
9.2.3 Prioritize and set objectives ... 23
9.2.4 Design and delivery ... 23
9.3 Monitoring and appraisal ... 23
9.3.1 General ... 23
9.3.2 Designing a monitoring programme to assess the impact of restoration on the indicator of interest ... 24
9.3.3 Survey timing ... 28
9.3.4 Choice of indicator variables ... 28

10 Quality assurance ... 29
10.1 General ... 29
10.2 Qualifications, experience and training ... 29

Annex A (informative) Case studies of river restoration projects to illustrate a range of approaches to river restoration ... 31

Annex B (informative) Case studies of monitoring to illustrate the physical and ecological effects of river restoration ... 43

Bibliography ... 47
