

ISO 18127:2026-02 (E)

Water quality - Determination of adsorbable organically bound fluorine, chlorine, bromine and iodine (AOF, AOCl, AOBr, AOI) - Method using combustion and subsequent ion chromatographic measurement

Contents		Page
Foreword		v
Introduction		vi
1 Scope		1
2 Normative references		1
3 Terms and definitions		2
4 Interferences		3
4.1 Interferences during adsorption.....		3
4.2 Interferences during combustion.....		3
4.3 Interferences during ion chromatography.....		3
5 Principle		3
6 Reagents		4
7 Apparatus and materials		8
8 Sampling and sample preparation		11
8.1 General.....		11
8.2 Sampling for the AOF determination.....		12
8.3 Sampling for the AOCl-, AOBr- and AOI determination.....		12
8.4 Further procedure of sample preparation.....		12
8.4.1 AOF determination.....		12
8.4.2 AOCl, AOBr and AOI determination.....		12
9 Procedure		12
9.1 Preliminary test.....		12
9.2 Homogenization.....		13
9.3 Sample preparation.....		13
9.3.1 General.....		13
9.3.2 Test sample for AOF determination.....		13
9.3.3 Test samples for AOCl, AOBr and AOI determination.....		13
9.4 Adsorption on activated carbon.....		13
9.4.1 Adsorption procedure.....		13
9.4.2 Washing of the activated carbon for AOF determination.....		14
9.4.3 Washing of the activated carbon for AOCl, AOBr and AOI determination.....		14
9.5 Additional procedure for samples containing suspended solids.....		14
9.6 Blank determination.....		14
9.6.1 AOF blank determination.....		14
9.6.2 AOCl, AOBr and AOI blank determination.....		14
9.7 Operation of the ion chromatography system.....		15
9.7.1 General.....		15
9.7.2 Calibration.....		15
9.7.3 Checking the ion chromatography.....		15
9.8 Combustion and absorption.....		15
9.9 Measurement of the absorption solution.....		15
10 Validation of the overall procedure		16
10.1 Initial check.....		16
10.2 Daily check.....		16
10.3 Test to determine the completeness of the adsorption.....		16
11 Selection of usable analytical results		16

12	Calculation	17
13	Expression of the results	18
14	Test report	18
Annex A (normative)	Determination of adsorbable organically bound fluorine (AOF)	19
Annex B (normative)	Determination of adsorbable organically bound chlorine (AOCl)	22
Annex C (normative)	Determination of adsorbable organically bound bromine (AOBr)	25
Annex D (normative)	Determination of the adsorbable organically bound iodine (AOI)	28
Annex E (informative)	Determination of adsorbable organically bound fluorine, chlorine, bromine and iodine using the shaking procedure (SH-AOF, SH-AOCl, SH-AOBr and SH-AOI)	31
Annex F (informative)	Determination of adsorbable organically bound fluorine, chlorine, bromine and iodine in waters with high halide contents after solid phase extraction (SPE-AOF, SPE-AOCl, SPE-AOBr, SPE-AOI)	34
Annex G (normative)	Test to determine the completeness of the adsorption by individual combustion of the activated carbons from the multiple determinations and separate absorption	37
Annex H (normative)	Test to determine the completeness of the adsorption by common combustion of the activated carbons from different dilution levels	38
Annex I (normative)	Test to determine the completeness of the adsorption by adsorption on columns connected in series with different quantities of adsorption columns	39
Annex J (normative)	Calculation of the CIC-AOX_(Cl) from the AOCl, AOBr and AOI results added according to Annex B, Annex C and Annex D	40
Annex K (informative)	Performance data	41
	Bibliography	43
