|-------------------|---|-------------|
| Foreword.....     |   | v           |
| Introduction..... |   | vi          |
| <b>1</b>          | <b>Scope.....</b>   | <b>1</b>    |
| <b>2</b>          | <b>Normative references.....</b>  | <b>1</b>    |
| <b>3</b>          | <b>Terms and definitions.....</b>   | <b>1</b>    |
| 3.1               | General terms.....  | 2           |
| 3.2               | Terms related to techniques.....  | 4           |
| 3.3               | Terms related to service conditions.....                                    | 6           |
| <b>4</b>          | <b>Abbreviated terms.....</b>   | <b>7</b>    |
| <b>5</b>          | <b>Pipeline rehabilitation process.....</b>                                 | <b>7</b>    |
| <b>6</b>          | <b>Investigation and condition assessment of the existing pipeline.....</b> | <b>8</b>    |
| 6.1               | Performance criteria.....   | 8           |
| 6.1.1             | General.....  | 8           |
| 6.1.2             | Hydraulic requirements.....   | 9           |
| 6.1.3             | Structural requirements.....  | 9           |
| 6.1.4             | Environmental requirements.....   | 9           |
| 6.1.5             | Operational requirements.....   | 10          |
| 6.2               | Investigation of performance.....   | 10          |
| 6.2.1             | General.....  | 10          |
| 6.2.2             | Hydraulic investigation.....  | 11          |
| 6.2.3             | Structural investigation.....   | 11          |
| 6.2.4             | Environmental investigation.....  | 12          |
| 6.2.5             | Operational investigation.....  | 12          |
| 6.3               | Condition assessment.....   | 12          |
| 6.4               | Risk analysis.....  | 13          |
| 6.5               | Control measures.....   | 13          |
| <b>7</b>          | <b>Classification and characteristics of rehabilitation techniques.....</b> | <b>14</b>   |
| 7.1               | Overview.....   | 14          |
| 7.2               | Classification of renovation techniques.....                                | 16          |
| 7.2.1             | General.....  | 16          |
| 7.2.2             | Lining with continuous pipes.....   | 16          |
| 7.2.3             | Lining with close-fit pipes.....  | 18          |
| 7.2.4             | Lining with cured-in-place pipes.....                                       | 21          |
| 7.2.5             | Lining with discrete pipes.....   | 25          |
| 7.2.6             | Lining with adhesive-backed hoses.....                                      | 29          |
| 7.2.7             | Lining with spirally-wound pipes.....                                       | 30          |
| 7.2.8             | Lining with pipe segments.....  | 33          |
| 7.2.9             | Lining with a rigidly anchored plastics inner layer.....                    | 34          |
| 7.2.10            | Lining with sprayed polymeric materials.....                                | 36          |
| 7.2.11            | Lining with inserted hoses.....   | 38          |
| 7.3               | Classification of trenchless replacement techniques.....                    | 40          |
| 7.3.1             | General.....  | 40          |
| 7.3.2             | Pipe bursting.....  | 40          |
| 7.3.3             | Pipe removal.....   | 43          |
| 7.3.4             | Horizontal directional drilling (HDD).....                                  | 46          |
| 7.3.5             | Impact moling.....  | 49          |
| 7.3.6             | Pipe jacking.....   | 51          |

|          |   |           |
|----------|---|-----------|
| <b>8</b> | <b>Selection of rehabilitation techniques</b> .....             | <b>54</b> |
| 8.1      | General.....  | 54        |
| 8.2      | Pipeline system layout.....                                     | 54        |
| 8.3      | Hydraulic performance.....                                      | 55        |
| 8.4      | Structural performance .....                                    | 56        |
|          | 8.4.1 General.....  | 56        |
|          | 8.4.2 Non-pressure pipes.....                                   | 56        |
|          | 8.4.3 Pressure pipes.....                                       | 57        |
| 8.5      | Environmental impact.....                                       | 60        |
| 8.6      | Construction constraints.....                                   | 61        |
| 8.7      | Project specification.....                                      | 61        |
| <b>9</b> | <b>Implementation of rehabilitation techniques</b> .....        | <b>62</b> |
| 9.1      | Preconstruction activities.....                                 | 62        |
| 9.2      | Assessment of conformity of products .....                      | 63        |
| 9.3      | Inspection, storage and handling of the materials on site ..... | 63        |
| 9.4      | Application of rehabilitation technique .....                   | 63        |
|          | 9.4.1 Preparatory work.....                                     | 63        |
|          | 9.4.2 Construction.....   | 64        |
| 9.5      | Acceptance control .....  | 64        |
|          | 9.5.1 General.....  | 64        |
|          | 9.5.2 Leaktightness testing.....                                | 64        |
|          | 9.5.3 Sampling.....   | 66        |
| 9.6      | Completion of the work.....                                     | 66        |
|          | 9.6.1 Finishing off the rehabilitation work.....                | 66        |
|          | 9.6.2 Lateral reinstatement.....                                | 66        |
| 9.7      | Documentation of the process.....                               | 66        |
|          | <b>Bibliography</b> .....                                       | <b>67</b> |
