ISO 25175:2026-06 (E)

Marine technology - Standard test methods for performance of reverse osmosis (RO) and nanofiltration (NF) membrane elements

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 RO and NF membrane elements types 1

5 Membrane elements air tightness test 1
5.1 General 1
5.2 Apparatus 2
5.3 Test procedure 2

6 Membrane elements performance test 3
6.1 Apparatus 3
6.2 Test Solution 4
6.3 Test procedure 4

7 Calculation 5
7.1 Water production 5
7.2 Membrane permeation 6
7.3 Salt rejection 6
7.4 Average salt rejection 6

8 Test report 6

Annex A (informative) Example of a test report 8

Bibliography 9
