# ISO 16072:2002-12 (E)

## Soil quality - Laboratory methods for determination of microbial soil respiration

## Contents

Page

Foreword ..... iv

Introduction ..... v

1 Scope ..... 1

2 Normative references ..... 1

3 Terms and definitions ..... 1

4 Procedure ..... 2
4.1 General conditions ..... 2
4.2 Choice of the measuring system ..... 3

5 Measuring systems ..... 3
5.1 Determination of O2 consumption by static incubation in a pressure-compensation system ..... 3
5.2 Determination of CO2 release by titration in a static system ..... 4
5.3 Coulometric determination of CO2 release in a static system ..... 6
5.4 Determination of CO2 release using an infrared gas analyser in a flow-through system ..... 7
5.5 Determination of CO2 release using gas chromatography in a flow-through system and a static system ..... 10
5.6 Determination of soil respiration by pressure measurement in a static system ..... 15

Bibliography ..... 19
