## Characterization of waste - Methodology for the determination of the leaching behaviour of waste under specified conditions

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
Introduction .....		4
1	Scope .....	5
2	Terms and definitions .....	5
3	Description of the steps in the methodology .....	6
3.1	Outline .....	6
3.2	Step 1: Definition of the problem and the solution sought .....	6
3.3	Step 2: Description of the scenario .....	7
3.4	Step 3: Description of the waste .....	7
3.5	Step 4: Determination of the influence of parameters on leaching behaviour within the specified time frame .....	8
3.6	Step 5: Modelling of leaching behaviour within the specified time frame .....	9
3.7	Step 6: Behavioural Model Validation .....	9
3.7.1	General .....	9
3.7.2	Verification of the consistency between parameter specific tests and simulation tests .....	9
3.7.3	Verification of predicted behaviour in the field .....	9
3.7.4	Identification of analogy with geological natural and/or ancient materials .....	9
3.8	Step 7: Conclusion .....	10
4	Study report .....	10
Annex A (informative) Principle of the methodology .....		11
Bibliography .....		12
