Foreword 2

1 Scope 4

2 Normative references 4

3 Terms and definitions 4

4 Principle 5

5 Materials 5
5.1 Test organisms 5
5.2 Water 6
5.3 Sea water 6
5.4 Nutrients 7

6 Apparatus 8

7 Procedure 8
7.1 Preparation of growth medium 8
7.2 Preparation of pre-culture and inoculum 8
7.3 Choice of test concentrations 9
7.4 Preparation of test substance stock solutions 9
7.5 Preparation of test and control batches 9
7.6 Incubation 10
7.7 Measurements 10

8 Validity criteria 10

9 Interpretation of data 11
9.1 Plotting growth curves 11
9.2 Calculation of percentage inhibition 11
9.3 Determination of EC(r)x 12

10 Expression of results 12

11 Interpretation of results 12

12 Reproducibility 12

13 Test report 13

Annex A (informative) Preparation of dilution series of mixtures in sea water (effluents or elutriates) 14
