DIN 2460:2006-06 (E)

Steel water pipes and fittings

Contents

Page

Foreword 3

1 Scope 3

2 Normative references 4

3 Terms and definitions 5

4 General 6

5 Designation and ordering information 7
5.1 Designation 7
5.2 Ordering information 7
5.3 Additional ordering information 8

6 Pipes 10

7 Fittings 10

8 Dimensions and tolerances 11
8.1 General 11
8.2 Outside diameter and wall thickness 11
8.3 Lengths 11

9 Joints for pipes and fittings 11
9.1 General 11
9.2 Pipe ends 11
9.3 Slip welding joints 11
9.4 Socket joints 12
9.5 Couplings 12
9.6 Other pipe joints 12

10 Linings 12
10.1 Drinking water pipelines 12
10.2 Pipelines for other aqueous media 12

11 Coatings 12
11.1 General requirements 12
11.2 Polyethylene coatings 12
11.3 Polypropylene coatings 12
11.4 Fibre cement mortar coatings (FZM) 13
11.5 Other coatings 13

12 Inspection certificates 13

13 Marking 13

Annex A (normative) Steel grades according to DIN EN Standards 20

Annex B (informative) Static calculation of buried steel pipe 22

Annex C (informative) Calculation of wall thicknesses for internal pressure 26

Annex D (informative) Support and bedding of steel pipes 29

Annex E (informative) Calculation of unsupported spans in steel pipelines 31
