ISO 22892:2006-02 (E)

Soil quality - Guidelines for the identification of target compounds by gas chromatography and mass spectrometry

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Principle 1

3 Terms and definitions 1

4 Apparatus 2

5 Procedure 3
5.1 Retention times 3
5.2 Mass spectra, selection of diagnostic ions 3

6 Qualification 4
6.1 GC-MS procedure 4
6.2 Additional information 5
6.3 Reporting the presence of target compounds 7
6.3.1 Identification 7
6.3.2 Indication 8
6.3.3 Absence of the target compound (< detection limit) 8

7 Test report 8

Annex A (informative) Diagnostic ions to be used for identification using GC-MS 9

Annex B (informative) Examples 12

Annex C (informative) Examples of Spectra 18
