Soil quality - Guidelines for the identification of target compounds by gas chromatography and mass spectrometry

| Contents | | Page |
|---|--|-------------|
| Foreword | | iv |
| Introduction | | v |
| 1 | Scope | 1 |
| 2 | Principle | 1 |
| 3 | Terms and definitions | 1 |
| 4 | Apparatus | 2 |
| 5 | Procedure | 3 |
| 5.1 | Retention times | 3 |
| 5.2 | Mass spectra, selection of diagnostic ions | 3 |
| 6 | Qualification | 4 |
| 6.1 | GC-MS procedure | 4 |
| 6.2 | Additional information | 5 |
| 6.3 | Reporting the presence of target compounds | 7 |
| 6.3.1 | Identification | 7 |
| 6.3.2 | Indication | 8 |
| 6.3.3 | Absence of the target compound (< detection limit) | 8 |
| 7 | Test report | 8 |
| Annex A (informative) Diagnostic ions to be used for identification using GC-MS | | 9 |
| Annex B (informative) Examples | | 12 |
| Annex C (informative) Examples of Spectra | | 18 |
| Bibliography | | 20 |
