

DIN ISO 10381-5:2007-02 (E)

Soil quality - Sampling - Part 5: Guidance on the procedure for the investigation of urban and industrial sites with regard to soil contamination (ISO 10381-5:2005)

Contents		Page
National foreword		3
National Annex NA (informative) Bibliography		4
Introduction		6
1 Scope		7
2 Normative references		8
3 Terms and definitions		8
4 Objectives		8
4.1 General		8
4.2 Definitions of objectives		8
5 General strategy of site investigation		9
5.1 General		9
5.2 Scope of preliminary investigation		11
5.3 Scope of exploratory investigation		11
5.4 Scope of main site investigation		12
6 Preliminary investigation		12
6.1 Introduction		12
6.2 Information on past and present use		13
6.3 Information on geology, pedology, hydrology and hydrogeology		13
6.4 Methodology		14
6.5 Development of the conceptual model		15
6.6 Reporting the preliminary investigation and the conceptual model		18
7 Design of intrusive investigations		20
7.1 Introduction		20
7.2 General aspects of field work		20
7.3 Overall design aspects		21
7.4 Sampling patterns and spacing for sampling soils		22
7.5 Analytical and testing strategies		27
8 Exploratory investigation		29
8.1 General		29
8.2 Sampling strategy		30
8.3 Interpretation of the exploratory investigation		31
8.4 Reporting the exploratory investigation		33
8.5 Determination of the need for a main site investigation		34
9 Main site investigation		34
9.1 General		34
9.2 Objectives and scope		35
9.3 Investigation design		36
9.4 Sampling strategy		36
9.5 Evaluation of the main site investigation		37
9.6 Reporting		38
Annex A (informative) Objectives of soil sampling		40
Bibliography		41
