

# DIN EN ISO 17294-1:2007-02 (E)

## Water quality - Application of inductively coupled plasma mass spectrometry (ICP-MS) - Part 1: General guidelines (ISO 17294-1:2004)

---

| <b>Contents</b>   |  | <b>Page</b> |
|---|--|-------------|
| Foreword .....  |  | 2           |
| 1 <b>Scope</b> .....  |  | 3           |
| 2 <b>Normative references</b> .....   |  | 3           |
| 3 <b>Terms and definitions</b> .....  |  | 3           |
| 4 <b>Principle</b> .....  |  | 7           |
| 5 <b>Apparatus</b> .....  |  | 7           |
| 6 <b>Interferences by concomitant elements</b> .....  |  | 14          |
| 7 <b>Adjustment of the apparatus</b> .....  |  | 20          |
| 8 <b>Preparatory steps</b> .....  |  | 23          |
| 9 <b>Procedure</b> .....  |  | 28          |
| <b>Annex A (informative) Spectral interferences, choice of isotopes and method detection limits for quadrupole ICP-MS instruments</b> ..... |  | <b>31</b>   |
