ISO 4386-3:2018 (E)

Plain bearings — Metallic multilayer plain bearings — Part 3: Non-destructive penetrant testing

Contents

Foreword

1 Scope

2 Normative references

3 Terms and definitions

4 Safety precautions

5 Preparation of test surface

- 5.1 General
- 5.2 Mechanical pre#cleaning
- 5.3 Chemical pre#cleaning
- 5.4 Drying

6 Application of penetrant

7 Removal of excess penetrant

8 Application of the developer

- 8.1 General
- 8.2 Restriction

9 Inspection

- 9.1 Bond defects
- 9.2 Sliding surface

10 Subsequent cleaning

11 Test report

Annex A (normative) Designation classes and acceptance criteria

- A.1 General
- A.2 Class A acceptance criteria
- A.3 Class B acceptance criteria
- A.4 Class C acceptance criteria
- A.5 Class D acceptance criteria
- A.6 Class E acceptance criteria
