Gas cylinders - Safe handling

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Content identification	2
5	Safe handling requirements	2
5.1	General	2
5.2	User responsibilities	3
6	Use of gas cylinders	6
6.1	General	6
6.2	Labels and safety data sheets (SDS)	6
6.3	Connecting cylinders and withdrawing content	6
6.4	Cylinder valve	6
6.5	Non-return valves	7
6.6	Flame arrestor and shut-off device	7
6.7	Manifolds	7
6.8	Gas tightness of connections	7
6.9	Residual cylinder pressure	7
6.10	Removing pressure regulator	7
6.11	Changing equipment service	7
6.12	Ventilation	8
6.13	Securing cylinders	8
6.14	Precautions for oxidizing gases	8
6.15	Oxygen concentration in work areas	8
6.16	Asphyxiation by inert gases	8
6.17	Hazards due to corrosive or toxic gases	8
6.18	Emergency precaution and required equipment	8
7	Storage	9
7.1	General	9
7.2	Hazard class	9
7.3	Storage (all hazard classes)	9
7.4	Storage by hazard class	10
