

DIN EN 16119:2013-05 (E)

LPG equipment and accessories - Sealing caps and plugs for LPG cylinder and pressure vessel valves - Specification and testing

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	6
4	Operating temperatures	7
5	Materials	7
5.1	Environmental	7
5.2	General	7
5.3	Metallic materials	7
5.4	Non-metallic materials	8
6	Design	8
6.1	General	8
6.2	Threads	8
6.3	Leak tightness	8
7	Testing and inspection of the design	9
7.1	General	9
7.2	LPG resistance	9
7.3	Water resistance	9
7.4	Climatic ageing during 168 hours	9
7.5	Hydraulic strength test	10
7.5.1	Reusable sealing caps or plugs	10
7.5.2	Single use sealing caps or plugs	10
7.6	Tightness test	10
7.7	Torque Test	10
8	Marking	10
9	Documentation	11
10	Packaging	11
Annex A (normative) Special low temperature requirements for caps or plugs		12
Annex B (normative) Combined aging test		13
B.1	General	13
B.2	Ultraviolet light	13
B.3	Rain	13
Annex C (informative) Environment checklist		16
Bibliography		17
