ISO 28921-1:2013-05 (E)

Industrial valves - Isolating valves for low-temperature applications - Part 1: Design, manufacturing and production testing

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 2

4 Requirements 3
4.1 Materials 3
4.2 Design 4

5 Testing 10
5.1 Production testing with low-temperature test 10

6 Sampling 10
6.1 Lot requirements 10
6.2 Sample size 11
6.3 Lot acceptance 11

7 Marking, labelling and packaging 11

Annex A (normative) Test procedure for production testing of valves at low temperature 13

Annex B (informative) Low-temperature test record 21

Bibliography 23
