

ISO 28921-1:2013-05 (E)

Industrial valves - Isolating valves for low-temperature applications - Part 1: Design, manufacturing and production testing

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	2
4	Requirements	3
4.1	Materials	3
4.2	Design	4
5	Testing	10
5.1	Production testing with low-temperature test	10
6	Sampling	10
6.1	Lot requirements	10
6.2	Sample size	11
6.3	Lot acceptance	11
7	Marking, labelling and packaging	11
Annex A (normative) Test procedure for production testing of valves at low temperature		13
Annex B (informative) Low-temperature test record		21
Bibliography		23
