Foreword v

Introduction vi

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 2

4 Inspection and testing 3

5 Materials 3
5.1 General provisions 3
5.1.1 Materials for the pressure envelope 3
5.1.2 The materials used for the drum 3
5.1.3 All parts welded to the drum 3
5.1.4 Welding consumables 3
5.1.5 Conformance 4
5.2 Heat treatment 4

6 Design 4
6.1 Design stress 4
6.2 Design temperature 4
6.3 Calculation of thickness 4
6.3.1 Cylindrical wall 4
6.3.2 Spherical shell 5
6.3.3 Dished ends 6
6.4 Minimum thickness for handling 9
6.5 Fittings 10
6.5.1 General 10
6.5.2 Screwed fittings 10
6.5.3 Bolted connections 10
6.5.4 Protection of fittings 10
6.5.5 Fittings and valves protection 11
6.5.6 Compensation of openings 12

7 Lifting attachments and rolling bands 15
7.1 Vertical and spherical drums 15
7.2 Horizontal drums 15
7.3 Rolling bands 15

8 Manufacturing process -- Welding procedures 15

9 Fabrication 16
9.1 Shell sections 16
9.2 Dished ends 16
9.3 Cold pressed dished ends 16
9.4 Hot pressed dished ends 16

10 Welded joints 16

11 Surfacefinishofmaterial 16

12 Assembly 17
12.1 Temporary attachments 17
12.2 Alignment of joints 17
12.3 Attachments and fittings 17

13 Weld defect repairs 17

14 Construction and workmanship 18
14.1 Thickness measurement 18

14.2 Out of roundness 18
14.3 Straightness 18

15 Testing and examination 18
15.1 Test plates 18
15.2 Provision of welded test plates 19
15.3 Number of test specimens 19
15.4 Mechanical tests 20
15.4.1 Tensile tests 20
15.4.2 Bend tests 21
15.4.3 Impact test 21
15.4.4 Macro examination 21
15.5 Non-destructive examination of completed welds 22
15.5.1 General 22
15.5.2 Radiography/radioscopy 22
15.5.3 Rejection criteria 22
15.6 Failure to meet test requirements 22
15.7 Lifting points 22

16 Type approval procedure 22
16.1 General requirements 22
16.2 Type approval tests 23
16.2.1 Prototype tests 23
16.3 Manufacturing tests on each drum 24
16.3.1 Volume check 24
16.3.2 Tare weight check 24
16.3.3 Proof pressure test 24
16.3.4 Pneumatic test 24
16.3.5 Final inspection 24
16.3.6 Tightness test 25

17 Marking 25
17.1 Drums 25
17.2 Hot pressure welded drums 25
17.3 Pressure drums for very toxic gases (LC50 less than 200 ppmV) 25
17.4 Position and size of marking 25

18 Certification 25
18.1 Type approval 25
18.2 Manufacturing conformance 25

19 Certificate 26

Annex A (informative) Description and evaluation of manufacturing of a welded steel pressure drums at the time of visual inspection 27

Annex B (informative) Example of calculation note for determination of thickness for shell and dished end for pressure drums according to 6.4 28

Annex C (informative)ExampleofApprovalcertificate 34

Annex D (informative) Hot pressure welded heads 37

Annex E (normative) Manufacturing defects in welded steel pressure drums and rejection criteria ..38
