European foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 6

4 Operational principles 7
4.1 General 7
4.2 Pre-inspection site visit 8
4.3 On-site inspection 8
4.3.1 General 8
4.3.2 Visual examination 9
4.3.3 Acoustic emission testing 9
4.3.4 Hydraulic testing 9
4.3.5 Supplementary tests 9

5 NDE personnel qualification 10

6 Marking 10

7 Certification/Report 10

8 Rendering tubes unserviceable 11

Annex A (normative) Description, evaluation of defects and conditions for rejection of refillable seamless steel pressure vessels (tubes) at the time of visual inspection 12

A.1 General 12
A.2 Physical or material defects 12
A.3 Corrosion 12
A.3.1 General 12
A.3.2 Corrosion types 13
A.3.3 Rejection criteria 13

Annex B (informative) Procedure for the examination of refillable seamless steel pressure vessels (tubes) using acoustic emission (AE) techniques 14

B.1 General 14
B.2 Equipment 14
B.3 Safety 14
B.4 Method 15
B.4.1 General 15
B.4.2 Procedure 15
B.5 Real-time evaluation criteria 16
B.6 Test report 17

Annex C (informative) Recommended time intervals for certain commonly contained gases 19

Annex D (informative) Pre-inspection site survey checklist / questionnaire 20

D.1 General 20
D.2 Regulation 20
D.3 Product 20
D.3.1 Pressure Vessels (Tubes) 20
D.3.2 Fittings / Ancillary items 20
D.3.3 Supports / Mountings 21
D.4 Installation 21
D.4.1 Suitable access 21
D.4.2 Test technique 21
D.5 Risk analysis 21
