

# DIN EN 12493:2017-01 (E)

## LPG equipment and accessories - Welded steel pressure vessels for LPG road tankers - Design and manufacture

---

| <b>Contents</b>         |  | <b>Page</b> |
|-------------------------|--|-------------|
| European foreword ..... |  | 6           |
| Introduction .....      |  | 7           |
| 1                       | Scope .....  | 8           |
| 2                       | Normative references .....                         | 8           |
| 3                       | Terms and definitions .....                        | 10          |
| 4                       | Materials .....                                    | 10          |
| 4.1                     | Environmental .....                                | 10          |
| 4.2                     | Suitability .....                                  | 11          |
| 4.3                     | Pressure retaining parts .....                     | 11          |
| 4.4                     | Non-pressure retaining parts .....                 | 11          |
| 4.5                     | Welding consumables .....                          | 11          |
| 4.6                     | Non-metallic materials (gaskets) .....             | 11          |
| 4.7                     | Inspection documents for materials .....           | 11          |
| 5                       | Pressure vessel design .....                       | 12          |
| 5.1                     | Design conditions .....                            | 12          |
| 5.2                     | Minimum thickness .....                            | 12          |
| 5.3                     | Surge plates .....                                 | 12          |
| 5.4                     | Doubler plates .....                               | 13          |
| 5.5                     | Stresses due to motion .....                       | 13          |
| 5.6                     | Self-supporting pressure vessels .....             | 13          |
| 5.7                     | Vacuum conditions .....                            | 14          |
| 5.8                     | Pressure vessel mountings .....                    | 14          |
| 5.9                     | Internal pipework .....                            | 14          |
| 6                       | Openings .....                                     | 14          |
| 6.1                     | General .....                                      | 14          |
| 6.2                     | Reinforcement of openings .....                    | 14          |
| 6.3                     | Threaded connections .....                         | 15          |
| 6.4                     | Manhole .....                                      | 15          |
| 7                       | Non-pressure retaining parts .....                 | 15          |
| 7.1                     | Attachment welds .....                             | 15          |
| 7.2                     | Position of attachment welds .....                 | 15          |
| 8                       | Workmanship and construction .....                 | 15          |
| 8.1                     | General .....                                      | 15          |
| 8.2                     | Environment .....                                  | 15          |
| 8.3                     | Control of materials .....                         | 16          |
| 8.4                     | Acceptable weld details .....                      | 16          |
| 8.5                     | Heat treatment and forming .....                   | 17          |
| 8.5.1                   | Cold forming .....                                 | 17          |
| 8.5.2                   | Hot forming .....                                  | 17          |
| 8.5.3                   | Testing of formed parts .....                      | 17          |
| 8.5.4                   | Visual examination and control of dimensions ..... | 18          |
| 8.5.5                   | Marking .....                                      | 18          |

|   |  |    |
|---|--|----|
| 8.6   | Welding .....  | 18 |
| 8.6.1   | General .....  | 18 |
| 8.6.2   | Longitudinal welds .....   | 18 |
| 8.6.3   | Welding procedure specification (WPS) .....                          | 18 |
| 8.6.4   | Qualification of WPS .....   | 18 |
| 8.6.5   | Qualification of welders and welding operators .....                 | 19 |
| 8.6.6   | Preparation of edges .....   | 19 |
| 8.6.7   | Attachments and fastenings .....                                     | 19 |
| 8.6.8   | Preheat .....  | 19 |
| 8.7   | Post-weld heat treatment .....                                       | 19 |
| 8.8   | Manufacturing tolerances .....                                       | 20 |
| 8.9   | Repairs to pressure envelope and direct attachment welds .....       | 20 |
| 8.9.1   | General requirements .....   | 20 |
| 8.9.2   | Repair of surface imperfections in the parent metal .....            | 20 |
| 8.9.3   | Repair of weld imperfections .....                                   | 20 |
| 9   | Construction and workmanship of internal pipework .....              | 21 |
| 10  | Manufacturing tests and examinations .....                           | 21 |
| 10.1  | General .....  | 21 |
| 10.2  | Mechanical testing .....   | 21 |
| 10.2.1  | Production test plates .....   | 21 |
| 10.2.2  | Longitudinal welds .....   | 21 |
| 10.2.3  | Circumferential welds .....  | 21 |
| 10.2.4  | Mechanical tests .....   | 21 |
| 10.2.5  | Test requirements .....  | 21 |
| 10.3  | Non-destructive testing .....  | 22 |
| 10.3.1  | General .....  | 22 |
| 10.3.2  | Internal imperfections .....   | 23 |
| 10.3.3  | Surface imperfections .....  | 23 |
| 10.4  | Non-destructive testing for welds .....                              | 23 |
| 10.4.1  | Radiographic testing .....   | 23 |
| 10.4.2  | Marking and identification of radiographs .....                      | 23 |
| 10.4.3  | Ultrasonic testing .....   | 23 |
| 10.4.4  | Magnetic particle testing .....                                      | 23 |
| 10.4.5  | Penetrant testing .....  | 24 |
| 10.5  | Qualification of non-destructive testing personnel .....             | 24 |
| 10.6  | Visual examination of welds .....                                    | 24 |
| 10.7  | Acceptance criteria .....  | 24 |
| 10.8  | Stress limitation and safety precautions at the hydraulic test ..... | 24 |
| 11  | External corrosion protection and finishing .....                    | 24 |
| 11.1  | External protection .....  | 24 |
| 11.2  | Finishing operations .....   | 24 |
| 12  | Marking .....  | 24 |
| 13  | Records and documentation .....                                      | 25 |
| 13.1  | Documentation obtained by the manufacturer .....                     | 25 |
| 13.2  | Records prepared by the manufacturer .....                           | 25 |
| 13.3  | Retention and supply of documents .....                              | 25 |
| Annex A (normative) Guidance on selection of material grades .....        |  | 26 |
| Annex B (normative) Reference temperatures for design .....               |  | 27 |
| B.1   | Introduction .....   | 27 |
| B.2   | General .....  | 27 |
| B.3   | Developed pressure .....   | 27 |
| B.4   | Filling .....  | 27 |
| Annex C (informative) Alternative reference temperatures for design ..... |  | 28 |

|   |   |    |
|---|---|----|
| C.1   | Introduction .....  | 28 |
| C.2   | General .....   | 28 |
| C.3   | Developed pressure .....  | 28 |
| C.4   | Filling .....   | 28 |
| Annex D (normative) Design .....  |   | 29 |
| D.1   | Design stresses .....   | 29 |
| D.2   | Design pressure .....   | 29 |
| D.3   | Design formulae .....   | 29 |
| D.3.1   | Cylindrical shell calculation .....   | 29 |
| D.3.2   | Dished ends .....   | 30 |
| D.3.2.1   | Minimum thickness .....   | 30 |
| D.3.2.2   | Torispherical end calculation .....   | 30 |
| D.3.2.3   | Ellipsoidal end calculation .....   | 31 |
| D.3.2.4   | Hemispherical ends .....  | 32 |
| D.3.2.5   | Formulae for calculating .....  | 32 |
| D.3.3   | Conical shell calculations .....  | 33 |
| D.3.3.1   | General requirements .....  | 33 |
| D.3.3.2   | Thickness of conical shell .....  | 33 |
| D.3.3.3   | Junction between large end of a cone and a cylinder without a knuckle ..... | 34 |
| D.3.3.4   | Junction between the small end of a cone and a cylinder .....               | 35 |
| D.4   | Nozzle reinforcement .....  | 37 |
| D.5   | Nozzle reinforcement by pads or flanges .....                               | 39 |
| D.6   | Nozzle reinforcement by branches .....                                      | 39 |
| Annex E (informative) Example of joints .....                               |   | 44 |
| Annex F (normative) Allowable tolerances .....                              |   | 48 |
| F.1   | Pressure vessels .....  | 48 |
| F.1.1   | External diameter .....   | 48 |
| F.1.2   | Out of roundness .....  | 48 |
| F.1.3   | Deviation of straightness .....   | 48 |
| F.1.4   | Irregularities in profile .....   | 49 |
| F.2   | Dished end tolerance .....  | 49 |
| F.2.1   | Thickness of material .....   | 49 |
| F.2.2   | Profile .....   | 49 |
| F.3   | Assembly tolerances .....   | 51 |
| F.3.1   | Middle line alignment .....   | 51 |
| F.3.2   | Surface alignment .....   | 51 |
| F.4   | Attachments, nozzles and fittings .....                                     | 51 |
| F.5   | Overall length .....  | 51 |
| Annex G (normative) Heat treatment .....                                    |   | 52 |
| G.1   | Method of post-weld heat treatment .....                                    | 52 |
| G.2   | Temperature control .....   | 52 |
| G.3   | Temperature limit .....   | 52 |
| G.4   | Temperature measurement .....   | 52 |
| Annex H (informative) Typical method for measurement of shell peaking ..... |   | 53 |
| H.1   | Profile gauge .....   | 53 |
| H.2   | Peaking survey .....  | 53 |
| Annex I (normative) Welding imperfections and test specimens .....          |   | 56 |
| I.1   | Imperfections .....   | 56 |
| I.2   | Test specimens .....  | 58 |

|   |           |
|---|-----------|
| <b>Annex J (informative) Choice of non-destructive test methods for welds .....</b> | <b>60</b> |
| <b>J.1 Internal imperfections .....</b>   | <b>60</b> |
| <b>J.2 Surface imperfections .....</b>  | <b>60</b> |
| <b>Annex K (normative) Hydraulic pressure test .....</b>                            | <b>61</b> |
| <b>K.1 Temporary fittings .....</b>   | <b>61</b> |
| <b>K.2 Pressure gauges .....</b>  | <b>61</b> |
| <b>K.3 Pressurizing agent .....</b>   | <b>61</b> |
| <b>K.4 Avoidance of shock .....</b>   | <b>61</b> |
| <b>K.5 Applied pressure .....</b>   | <b>61</b> |
| <b>Annex L (informative) Environmental checklist .....</b>                          | <b>62</b> |
| <b>Bibliography .....</b>   | <b>63</b> |
