

ISO/TR 4673:2022-10 (E)

Gas cylinders - Service life performance of composite cylinders and tubes

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	History of composite cylinder design	2
5	Current testing regimes	2
5.1	General	2
5.2	Requirements at the design, construction and testing stage	2
5.3	Requirements at Pre-fill inspection	5
5.4	Requirements at Periodic inspection and testing	6
6	Significance of cylinder test on their performance	6
7	Service performance including pre-fill and periodic inspection and test	8
8	Summary and conclusions	8
Bibliography		9
