## Gas cylinders - Guidance for design of composite cylinders - Part 4: Cyclic fatigue of fibres and liners

---

| <b>Contents</b>  |  | <b>Page</b> |
|--|--|-------------|
| Foreword .....   |  | iv          |
| <b>1</b>   | <b>Scope .....</b>                                 | <b>1</b>    |
| <b>2</b>   | <b>Normative references .....</b>                  | <b>1</b>    |
| <b>3</b>   | <b>Terms and definitions .....</b>                 | <b>1</b>    |
| <b>4</b>   | <b>Background .....</b>                            | <b>1</b>    |
| <b>5</b>   | <b>Cyclic fatigue evaluation .....</b>             | <b>2</b>    |
| <b>6</b>   | <b>Elements of cyclic fatigue .....</b>            | <b>2</b>    |
| 6.1  | Service conditions and requirements .....          | 2           |
| 6.1.1  | Temperature and moisture .....                     | 2           |
| 6.1.2  | Pressure .....                                     | 3           |
| 6.1.3  | Pressure cycles .....                              | 3           |
| 6.2  | Test conditions and specimens .....                | 4           |
| 6.3  | Fibre materials and their fatigue properties ..... | 6           |
| 6.3.1  | Materials .....                                    | 6           |
| 6.3.2  | Material properties and data .....                 | 6           |
| 6.3.3  | Hybrid construction .....                          | 7           |
| 6.4  | Liner materials and their fatigue properties ..... | 8           |
| 6.4.1  | Materials used .....                               | 8           |
| 6.4.2  | Material properties and data .....                 | 8           |
| 6.4.3  | Issues with localized strain differences .....     | 8           |
| 6.5  | Resin materials and their fatigue properties ..... | 9           |
| 6.6  | Composite/liner load sharing .....                 | 9           |
| 6.7  | Autofrettage .....                                 | 9           |
| 6.8  | Analysis methods .....                             | 10          |
| 6.9  | Leak before burst (LBB) .....                      | 10          |
| 6.10   | Damage tolerance .....                             | 11          |
| 6.11   | Aging and environment .....                        | 11          |
| 6.12   | Counting cycles .....                              | 11          |
| 6.13   | Combining cycles .....                             | 13          |
| 6.14   | Qualification testing .....                        | 13          |
| <b>7</b>   | <b>Summary and conclusions .....</b>               | <b>13</b>   |
| <b>Annex A (informative) Equivalent pressure cycling .....</b> |  | <b>14</b>   |
| <b>Bibliography .....</b>                                      |  | <b>20</b>   |
