ISO/TR 19884-3:2026-08 (E)

Gaseous hydrogen - Pressure vessels for stationary storage - Part 3: Pressure cycle test data to demonstrate partial pressure cycle estimation methods

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Goodman diagram based method 2
4.1 S-N diagram 2
4.2 Equivalent pressure cycling 3
4.3 Goodman diagram 4

5 Exponential formula based method 5
5.1 Formula of cycle life extension by partial pressure cycle 5
5.2 Pressure-cycle test data to determine index 6
5.2.1 General 6
5.2.2 Specification of vessel 6
5.2.3 Hydraulic cycle test conditions 6
5.2.4 Cycle tests results 7
5.2.5 Determination of index 7
5.2.6 Finite element analysis 8
