## Transportable gas cylinders - Periodic inspection and testing of composite gas cylinders

---

<b>Contents</b>		<b>Page</b>
Foreword .....		v
Introduction .....		1
1 <b>Scope</b> .....		1
2 <b>Normative references</b> .....		1
3 <b>Terms and definitions</b> .....		2
4 <b>Intervals between periodic inspection and testing</b> .....		3
5 <b>Procedures for periodic inspection and test</b> .....		6
6 <b>Identification of cylinder and preparation for inspection and test</b> .....		7
7 <b>External visual inspection</b> .....		7
8 <b>Internal visual inspection</b> .....		11
9 <b>Permeability testing</b> .....		12
10 <b>Pressure test</b> .....		12
11 <b>Inspection of valve</b> .....		12
12 <b>Final operations</b> .....		13
13 <b>Rejection and rendering cylinders unserviceable</b> .....		14
<b>Annex A (informative) Example of procedure to be adopted when a cylinder valve is suspected of being obstructed</b> .....		24
<b>Annex B (normative) Damage criteria for wire wound aluminium alloy cylinders</b> .....		27
<b>Annex C (informative) Volumetric expansion testing of gas cylinders</b> .....		28
<b>Annex D (informative) Inspection and maintenance of valves - Recommended procedures</b> .....		36
<b>Annex ZA (normative) Corresponding International and European Standards for which equivalents are not given in the text</b> .....		37
