|--------------------|--|-------------|
| Foreword .....     |  | 3           |
| 1                  | Scope .....                                      | 4           |
| 2                  | Normative references .....                       | 4           |
| 3                  | Terms and definitions .....                      | 4           |
| 4                  | Dimensions .....                                 | 5           |
| 4.1                | Shapes and dimensions .....                      | 5           |
| 4.1.1              | Elastomer waterstops with centre bulb .....      | 5           |
| 4.1.2              | Elastomer waterstops without a centre bulb ..... | 6           |
| 4.1.3              | Elastomer cap seals .....                        | 6           |
| 4.2                | Designation .....                                | 6           |
| 5                  | Requirements .....                               | 7           |
| 5.1                | Dimensions .....                                 | 7           |
| 5.2                | Surface condition .....                          | 7           |
| 5.3                | Shapes .....                                     | 7           |
| 6                  | Marking .....                                    | 26          |
| Bibliography ..... |  | 27          |
