Page

Foreword ... 3

1 Scope ... 4

2 Normative references ... 4

3 Terms and definitions ... 5

4 Shape and dimensions ... 5

5 Material ... 5
5.1 General ... 5
5.2 Temperature classes ... 5
5.3 Material classes ... 6

6 Requirements ... 6
6.1 Material requirements ... 6
6.2 Compatibility with contact media ... 9

7 Test methods ... 9
7.1 General ... 9
7.2 Hardness and tolerance on hardness ... 9
7.3 Tensile strength and elongation at break ... 9
7.4 Compression set at 100 °C ... 9
7.5 Compression set at 70 °C ... 9
7.6 Compression set at −25 °C ... 9
7.7 Thermal ageing ... 9
7.7.1 Temperature class −25 °C to +70 °C ... 9
7.7.2 Temperature class −25 °C to +100 °C ... 9
7.8 Low temperature performance ... 9
7.9 Resistance to ozone ... 10
7.10 Compatibility with contact media ... 10
7.11 Reaction to fire ... 10

8 Test report ... 10

Bibliography ... 11
