DIN 78004-2:2021-03 (E)

Plastics - Thermoplastic styrene-based elastomers for moulding and extrusion - Part 2: Preparation of test specimens and determination of properties

Contents

Page

Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Test specimens 6
4.1 General 6
4.2 Conditioning of material before injection moulding 6
4.3 Injection moulding 6
4.4 Punching the test specimens 8
4.5 Conditioning of test specimens 8

5 Determination of properties 8
5.1 General 8
5.2 Shore 00 hardness -- Standard properties and test conditions 10
5.3 Shore A hardness -- Standard properties and test conditions 11
5.4 Shore D hardness -- Standard properties and test conditions 12

Annex A (informative) Description and determination of important standard and other properties ...13

A.1 General 13
A.2 Typical stress/strain curves 13
A.3 Glass transition 14
A.4 Determination of adhesion according to VDI 2019 15
A.5 Colorimetry 15
A.6 Determination of flow properties 15
