ISO 6807:2003-12 (E)

Rubber hoses and hose assemblies for rotary drilling and vibration applications - Specification

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Classification 2

5 Materials and construction 2

6 Dimensions and tolerances 3

7 Physical properties of rubber materials 4

8 Performance requirements for hoses/hose assemblies 5

9 Marking 6

10 Storage 6

11 Design verification testing 6

12 Frequency of testing 7

13 Test report 7

Annex A (normative) Pressure tests 8

Annex B (normative) Frequency of design verification testing and routine testing 9

Annex C (informative) Frequency of production acceptance testing 10
