## Rubber materials - Chemical resistance

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Types of chemical and physical change .....	1
3	Rubber polymers .....	2
4	Chemicals .....	3
5	Effect of service conditions .....	3
6	Criteria applied for the ranking of chemical resistance .....	3
7	Chemical resistance of rubber materials .....	4
8	Methods for the evaluation of chemical resistance .....	5
9	Chemical resistance .....	8
Annex A (informative) Effect of compounding variations on chemical resistance .....		32
Annex B (informative) References in Table 2 .....		34
Annex C (informative) References in Table 3 .....		35
