ISO 18776:2008-02 (E)

Laminated veneer lumber (LVL) - Specifications

Contents

Page

Foreword iv

1 Scope 1

2 Conformance 1
2.1 Quality system requirements 1
2.2 Manufacturing specifications 1

3 Normative references 2

4 Terms and definitions 2

5 Materials 3
5.1 Veneer 3
5.1.1 General 3
5.1.2 Species 3
5.1.3 Thickness 3
5.1.4 Quality 3
5.1.5 Jointing 4
5.2 Adhesives 4

6 Bonding quality 4

7 Lay-up (arrangement of veneers) 4

8 Dimensions, shape and tolerances 4
8.1 Dimensions 4
8.2 Shape 5
8.3 Tolerances 5
8.3.1 Dimensions 5
8.3.2 Shape 6

9 Determination of properties 6
9.1 Physical properties 6
9.2 Mechanical properties 6
9.2.1 General 6
9.2.2 Structural applications 6
9.3 Supplementary properties 6

10 Preservative and chemical treatments 7
10.1 Natural or confered biological durability 7
10.2 Effect of chemical treatments 7
11 Formaldehyde release 7
12 Marking (identification) 7

Annex A (normative) Veneer quality 9

Annex B (normative) Panel construction (Veneer arangement) 10

Annex C (informative) Properties to be determined depending on end use 11

Annex D (informative) Supplementary properties 12
