DIN EN 622-5:2010-03 (E)

Fibreboards - Specifications - Part 5: Requirements for dry process boards (MDF)

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 Terms and definitions 5

4 Requirements 6
4.1 General 6
4.2 Requirements for non load-bearing boards, including boards for general purpose use 7
4.2.1 Requirements for boards for use in dry conditions 7
4.2.2 Requirements for boards for use in humid conditions 7
4.3 Requirements for load-bearing boards 8
4.3.1 Requirements for load-bearing boards for use in dry conditions 8
4.3.2 Requirements for load-bearing boards for use in humid conditions 8
4.4 Requirements for light MDF boards for non load-bearing applications, including general purpose boards 9
4.4.1 Requirements for boards for use in dry conditions 9
4.4.2 Requirements for boards for use in humid conditions 10
4.5 Requirements for ultra-light MDF boards for non load-bearing applications, including general purpose boards 10
4.6 Requirements for boards for use in rigid underlays in roofing and walls 11

5 Verification of compliance 12
5.1 General 12
5.2 External control 12
5.3 Factory production control 12

6 Supplementary properties 12

7 Marking 13
7.1 Boards marketed within the European Economic Area for construction applications 13
7.2 Other boards 13

Annex A (normative) Boil test according to EN 1087-1 - Modified procedure 14
